

JEFFERSON GRIEBEL

Passionate about working hard, learning, and being part of something that makes a difference. I believe through hard work anyone can achieve anything. I always put my best effort forward no matter the circumstances. Having the opportunity to work on projects that help other people is what drives me to succeed.

Manual Software Testing, Automated Software Testing, Selenium, MySQL, Appium, Full Stack JavaScript Development, ReactJS, Framework, Swift, Mobile App Development, UI Development, Charles Proxy, Postman, Git, ADB, SCRUM, HTML, Microsoft apps, & Kanban methodology, CLI, Target Process

CAREER

TAPGOODS INC. – QUALITY ASSURANCE ENGINEER

NOVEMBER 2021 - PRESENT

Tested and released state of the art online rental software. Create tests using an automated test environment with CircleCI and Cypress. Tested and released bug fixes for clients weekly. Worked in teams using AGILE and Kanban methodology to complete the necessary workloads during each sprint. Participated in drastically reducing client churn and reduced the frequency of bug discovery within the application.

MOBIQUITY INC. – ASSOCIATE ENGINEER 1

OCTOBER 2018 – 2021

Test and releasing quality software for an FDA approved digital medicine application. Using automated and manual testing practices within the scope of the SDLC. Extensive Postman knowledge and use to test application APIs. Within a team of QA and Software Engineers we completed multiple release and sprint cycles releasing more than four iterations of an application. Executed regression test suites to ensure bug free releases. Used Amazon Web Services and Jenkins to run and retrieve builds.
